| Equal Set Lengths                          | ✅ Satisfied (75:41 / 75:35 — 0:06 spread)                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |       |
| Gig-Ready Songs Only                       | ✅ Satisfied (all 31 scheduled songs are gig-ready — <i>Ride Like the Wind</i> cleared into the active repertoire on 2026-09-09)                                                                                                                                                                                                                                                                                                                                                                           |       |
| No Duplicate Songs                         | ⚠️ Fixed from draft ( <i>Hit Me with Your Best Shot</i> and <i>Respect</i> each appeared twice; the Set 1 <i>Hit Me</i> and the second <i>Respect</i> were dropped)                                                                                                                                                                                                                                                                                                                                       |       |
| Dance Peak<br>(danceable late in each set) | ⚠️ Partially Satisfied (Set 2 closes danceable on <i>All Right Now</i> → <i>Roll with the Changes</i> ; Set 1 ends on <i>Piano Man</i> by design)                                                                                                                                                                                                                                                                                                                                                         |       |
| Vocalist Balance                           | ✅ Satisfied (max 3 in a row — Lauren, Set 1 #10–#12; Lauren, Set 2 #14–#16. The Jon run at Set 2 #4–#6 is gone: <i>Baby Blue</i> is pulled and <i>Don't Stop</i> now splits <i>Reeling in the Years</i> from <i>Brandy</i> )                                                                                                                                                                                                                                                                              |       |
| Lauren Vocal Health                        | ✅ Satisfied (Set 1 taxing songs 3 apart — <i>You Oughta Know</i> #7, <i>Zombie</i> #10; pulling <i>Me and Bobby McGee</i> removed the third. Set 2 has only <i>Respect</i> #12. She leads 17 of 31 — 54.8% of the night)                                                                                                                                                                                                                                                                                  |       |
| Segue Integrity                            | ✅ Satisfied ( <i>Brown Eyed Girl</i> → <i>Hey Jealousy</i> is intact, in canonical order. Moving <i>Don't Stop</i> up to Set 2 #5 restores the <i>Reeling in the Years</i> → <i>Don't Stop</i> link of the <i>Funkytown</i> chain, so its cue is back to SEGUE Piano. The rest of that chain is still out of play — <i>Funkytown</i> is deliberately left out, so <i>Miss You</i> stays a standalone with a de-segued cue)                                                                                |       |
| Target Duration                            | ⚠️ Over Target (161:16 against the 150-min block — 11:16 over, so the room runs past 5:30. Pulling <i>Me and Bobby McGee</i> and <i>Baby Blue</i> took 8:00 of music out, but the transition buffer widened from 30s to 60s per song change after the Empire gig ran ~5 min long per set, which adds 14:30 across 29 changes. Taking both emergency cuts — <i>Hook</i> (Set 1 #11) and <i>The Chain</i> (Set 2 #14) — saves 9:30 of music plus 2:00 of buffer and lands at 149:46, just inside the block) |       |
| Vocalist Inclusion                         | ✅ Satisfied (Lauren, Jon and Martin all lead; David is out)                                                                                                                                                                                                                                                                                                                                                                                                                                               |       |
| Pacing Flow                                | ⚠️ 2 energy drop(s): <i>Don't Stop Believing</i> → <i>Piano Man</i> (#14→#15, SET 1); <i>Don't Stop</i> → <i>Brandy</i> (#5→#6, SET 2)                                                                                                                                                                                                                                                                                                                                                                    |       |

#### ⚠ WARNING

**Source:** the band's hand-drafted *Ballydoyle 2-set block* (Google Doc → Setlists), rendered in the drafted running order rather than re-solved.

#### ⚠ WARNING

**Substitutions:** David is out — keyboard/marimba parts are covered by Jon (piano) or omitted (*Rikki Don't Lose That Number* goes keys-straight-in), and David's backing vocals are dropped. No David-led song is scheduled, so no lead vocals are reassigned.
